

# How to Spot a Child at Risk of Falling Behind in Reading

Live Online CPD Webinar led by  
**David Morgan**

David is the Co-Author of  
Amazon Best Seller,

**'The 9 Main Causes  
of Reading Difficulty'**

**10th March 2022**

**10.30am - 12.00pm, Online Webinar**

**“You have to pinpoint what is CAUSING reading difficulty before you can fix it”**

Do you know a struggling reader consistently guessing short, common words instead of reading them? Or perhaps you have seen some word skipping? Or maybe reading practice often ends in a battle, or tears? DM Education suggest these are clear symptoms of different underlying neurological patterns. Their research suggests that if we can better understand what is going on and can target the underlying cause of the reading difficulty, we are better able to apply the right solution and fix the issue.

The Learners First English Hub @ Whiston Worrygoose is delighted to welcome **David Morgan**, founder and CEO of DM Education and co-author of the Amazon best seller, 'The 9 Main Causes of Reading Difficulty' to lead this live online webinar and explore these challenges in more detail. During the session, David will share his research informed insights and experiences of helping struggling readers based on a neurological analysis of what happens in the brain when someone reads or spells.

The session aims to support delegates to better identify and support children at risk of falling behind in reading by providing an overview of some of the possible causes of reading difficulty and the corresponding, practical solutions to overcome them. This includes references to whole word sight readers (or the “Guessers”), children who have eye tracking difficulties (the “Skippers”), for people with auditory processing difficulties, for children who develop a very high stress response, people with visual stress symptoms and several other patterns that can cause reading and spelling difficulty.

- **Audience:** Teachers, Literacy Leads, Headteachers
- **Cost:** Fully funded for schools engaging with the Learners First English Hub
- **To book:** If you are viewing this flyer electronically please [Click Here](#) to book a place. (Alternatively, please book via the Learners First website).
