

Leadership Plus Workshops

Cohort 4 -Recruiting for March 2026

Calling school and classroom leaders...

- Are you responsible for leading a change project in your school or setting?
- Would you value the opportunity to apply evidence informed change management processes to deliver a project that is appropriate for your context, secures buy-in from staff and has a sustainable impact on children and young people?
- Are you interested in developing your digital curiosity, using AI to reduce workload, innovate your practice and help deliver change in your school?
- Would you value the time and headspace to get ahead and develop your project in real time with your own school data during facilitated sessions?
- Are you keen to network with your peers and share great practice through a leadermeet?

If yes, then Leadership Plus could be for you!

Target Audience

The Leadership Plus Workshops not only build on the learning from the NPQ but cover what the NPQs do not, supporting leaders to develop the skills and competencies to lead change – emotional intelligence, team dynamics and the importance of effective communication. Participants do not have to have studied an NPQ. Those that have may want to continue to develop their implementation projects into the future.

You will be supported to work through a change management cycle and align your contextual situation to the theory and measure tangible impact on children and young people. We will facilitate:

- ❖ Peer support, professional challenge and an opportunity to showcase your great work in your school through a Leader Meet
- ❖ Networking opportunities & exposure to other school settings and contexts
- ❖ The headspace to think and reflect on your leadership and work in your school improvement project
- ❖ Opportunity to be digitally curious, exploring the possibilities offered by AI to enhance your work and save valuable time.

➔ Learning Focus

Workshop 1 – March 25th 1-4 pm (F2F)*

The importance of culture and context. Create your case study (problem in practice) in your setting, develop your AI digital curiosity and create the conditions for change.

Workshop 2 – April 29th 8.45-3pm (F2F)*

‘Explore’: contextualised planning, behaviours for implementation using the enhanced EEF Implementation guide, change management models and securing ‘buy in’

Workshop 3 – May 20th 3.30-5 pm (Online)

Leading through Coaching, Succession Planning & Scaling Up (Webinar)

Workshop 4 – June 22nd 8.45-3 pm (F2F)*

‘Prepare’: including budget/resource planning, risk management, stakeholder communication, engagement and demonstrating impact

Workshop 5 – July 9th 1-4 pm (F2F) Winterhill School

LeaderMeet/Poster Conference - Communicating, networking and sharing great practice that you’re proud of!

**Venue: Whiston Worrygoose Primary School, Rotherham S60 4AG*
